

Mini Mist Aerosol Smoke Machine

Robust, Hand-Held, Portable, Water Based System

Features:

- Operate unplugged for up to 20 mins
- 6 x 1 minute bursts per smoke canister
- Portable and compact
- MOD approved
- Warranty – 12 months

The Mini Mist is a robust, hand-held aerosol smoke machine.

The Mini Mist is certified for use in fire evacuation and breathing apparatus training by the military and emergency services, hospitals and other public sector industries. It is also widely used in the film and TV industry.

Control & Programming

- Connect to mains supply for heating
- Warm up time approx. 9 mins
- Button must be held down to operate

Performance

- Output (max): 10,800 cbm/hr
- Fluid consumption: 1.2cc/s (max)
- 6 x 1 minute bursts per canister
- Tested and safe for use on live stage performances

Mini Mist Aerosol Smoke Machine (continued)

Fluids

- Mini Mist Canister - Standard Smoke Fluid: Clean and odourless. Creates a dense, white fog with medium hang time. Used by theatres for portable, quick stage access. Also used for testing heating and air conditioning systems for ventilation leaks.
- Mini Mist Canister - Industrial Smoke Fluid: Used by the Emergency Services for breathing apparatus and fire safety training. It has a long hang time and a higher tolerance to heat.

Le Maitre's fluids are included in the "Equipment Based Guidelines for the Use of Theatrical Smoke and Haze" prepared by Environ International Corporation and can be used in compliance with ANSI standards for theatrical fog and the PLASA (previously ESTA) Fog Testing Program. Copies can be found on www.actorsequity.org.

Installation

- Hand-held

Physical / Electrical

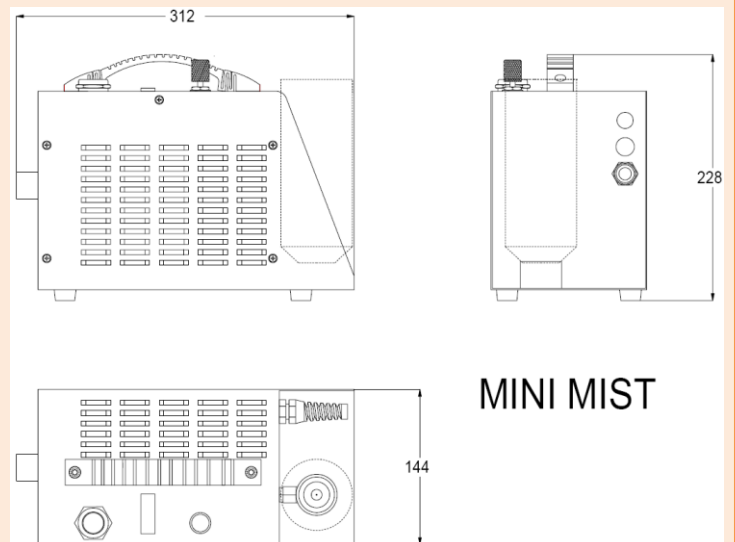

- Size (HxWxL): 230 x 145 x 315mm
- Weight: 9 kg
- Power: 230v, 50/60Hz, 1Kw, 5A
